

RIPE NCC
RIPE NETWORK COORDINATION CENTRE

RIPE NCC Security Outreach Activities

Mirjam Kühne

Scope and Goals

- Increase visibility in security communities
 - More cross-collaboration between RIPE and security communities
 - More awareness about RIPE and the RIPE NCC
- Understanding interests and concerns of security communities better
 - Governments, researchers, “hackers”, CSIRTs, operators..
- Lead by example
 - Provide information about security topics (e.g. RIPE Labs)
 - Make sure we follow security best practices

Presenting at Various Events (1)

- MAAWG
 - “RIPE and RIPE NCC” together with Brian Nisbet
- CARIS (IAB and ISOC)
 - Moderated panel on “Incident data sharing”
- net:25 (ACOnet)
 - Moderated panel on “Internet of Things and regulation”

Presenting at Various Events (2)

- TF-CSIRT
 - RPKI, responsible disclosure, Russian privacy law
- BlackHat Europe
 - DNS panel session

Attending Various Events

- Cybersecurity Forum (RU)
- RootedCON (ES)
- FOSDEM (BE)
- NCSC ONE Conference (NL)
- Global Conference on Cyberspace (NL)
- Russian Internet Week (RU)
- And more...

LEA Outreach

- Continue training on tools (RIPEstat, RIPE Atlas) and IPv6
- Continue to talk with LEAs, Interpol and Europol
- Discuss developments in industry and LEAs
 - Security, IPv6, IPv4 transfers etc.
- Identifying where we can help each other with expertise

Other Activities

- Datasets for abuse handlers
 - In collaboration with CSIRTs and maintainers of datasets
 - Document ready - will be a RIPE Document after RIPE 71
- Responsible Disclosure Policy
- “A” rating on SSL Labs for our websites
- DANE/TLSA record added for main websites
 - <https://labs.ripe.net/Members/mgrigore/implementing-dane-for-ripe-ncc-websites>
- Security audits for various services
