

# The IANA Stewardship Transition & the Numbers community

---

**Nurani Nimpuno**

Vice chair CRISP team

# IANA Stewardship Process: CRISP Team

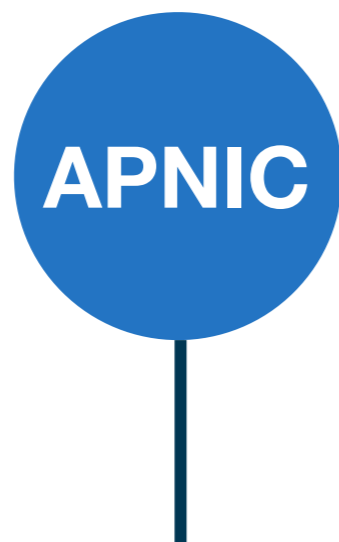

---

- Consolidated RIR IANA Stewardship Proposal (CRISP) Team

- 15 members: 2 community reps + 1 RIR staff / region

Janvier Noulaye  
Mwendwa Kivuva  
Ernest Byaruhanga

Dr. Govind  
Izumi Okutani  
Craig Ng

Andrei  
Robachevsky  
Nurani Nimpuno  
Paul Rendek

Bill Woodcock  
John Sweeting  
Michael Abejuela

Esteban Lescano  
Nico Scheper  
Andres Piazza

# Numbers community priorities

---

**stability &  
reliability**

**community  
empowerment**

**operation /  
policy  
separation**

**quality of  
service**

**continuity of  
operations**

**Accountability**

**RIRs to  
establish SLA  
with IANA  
operator**

**SLA**

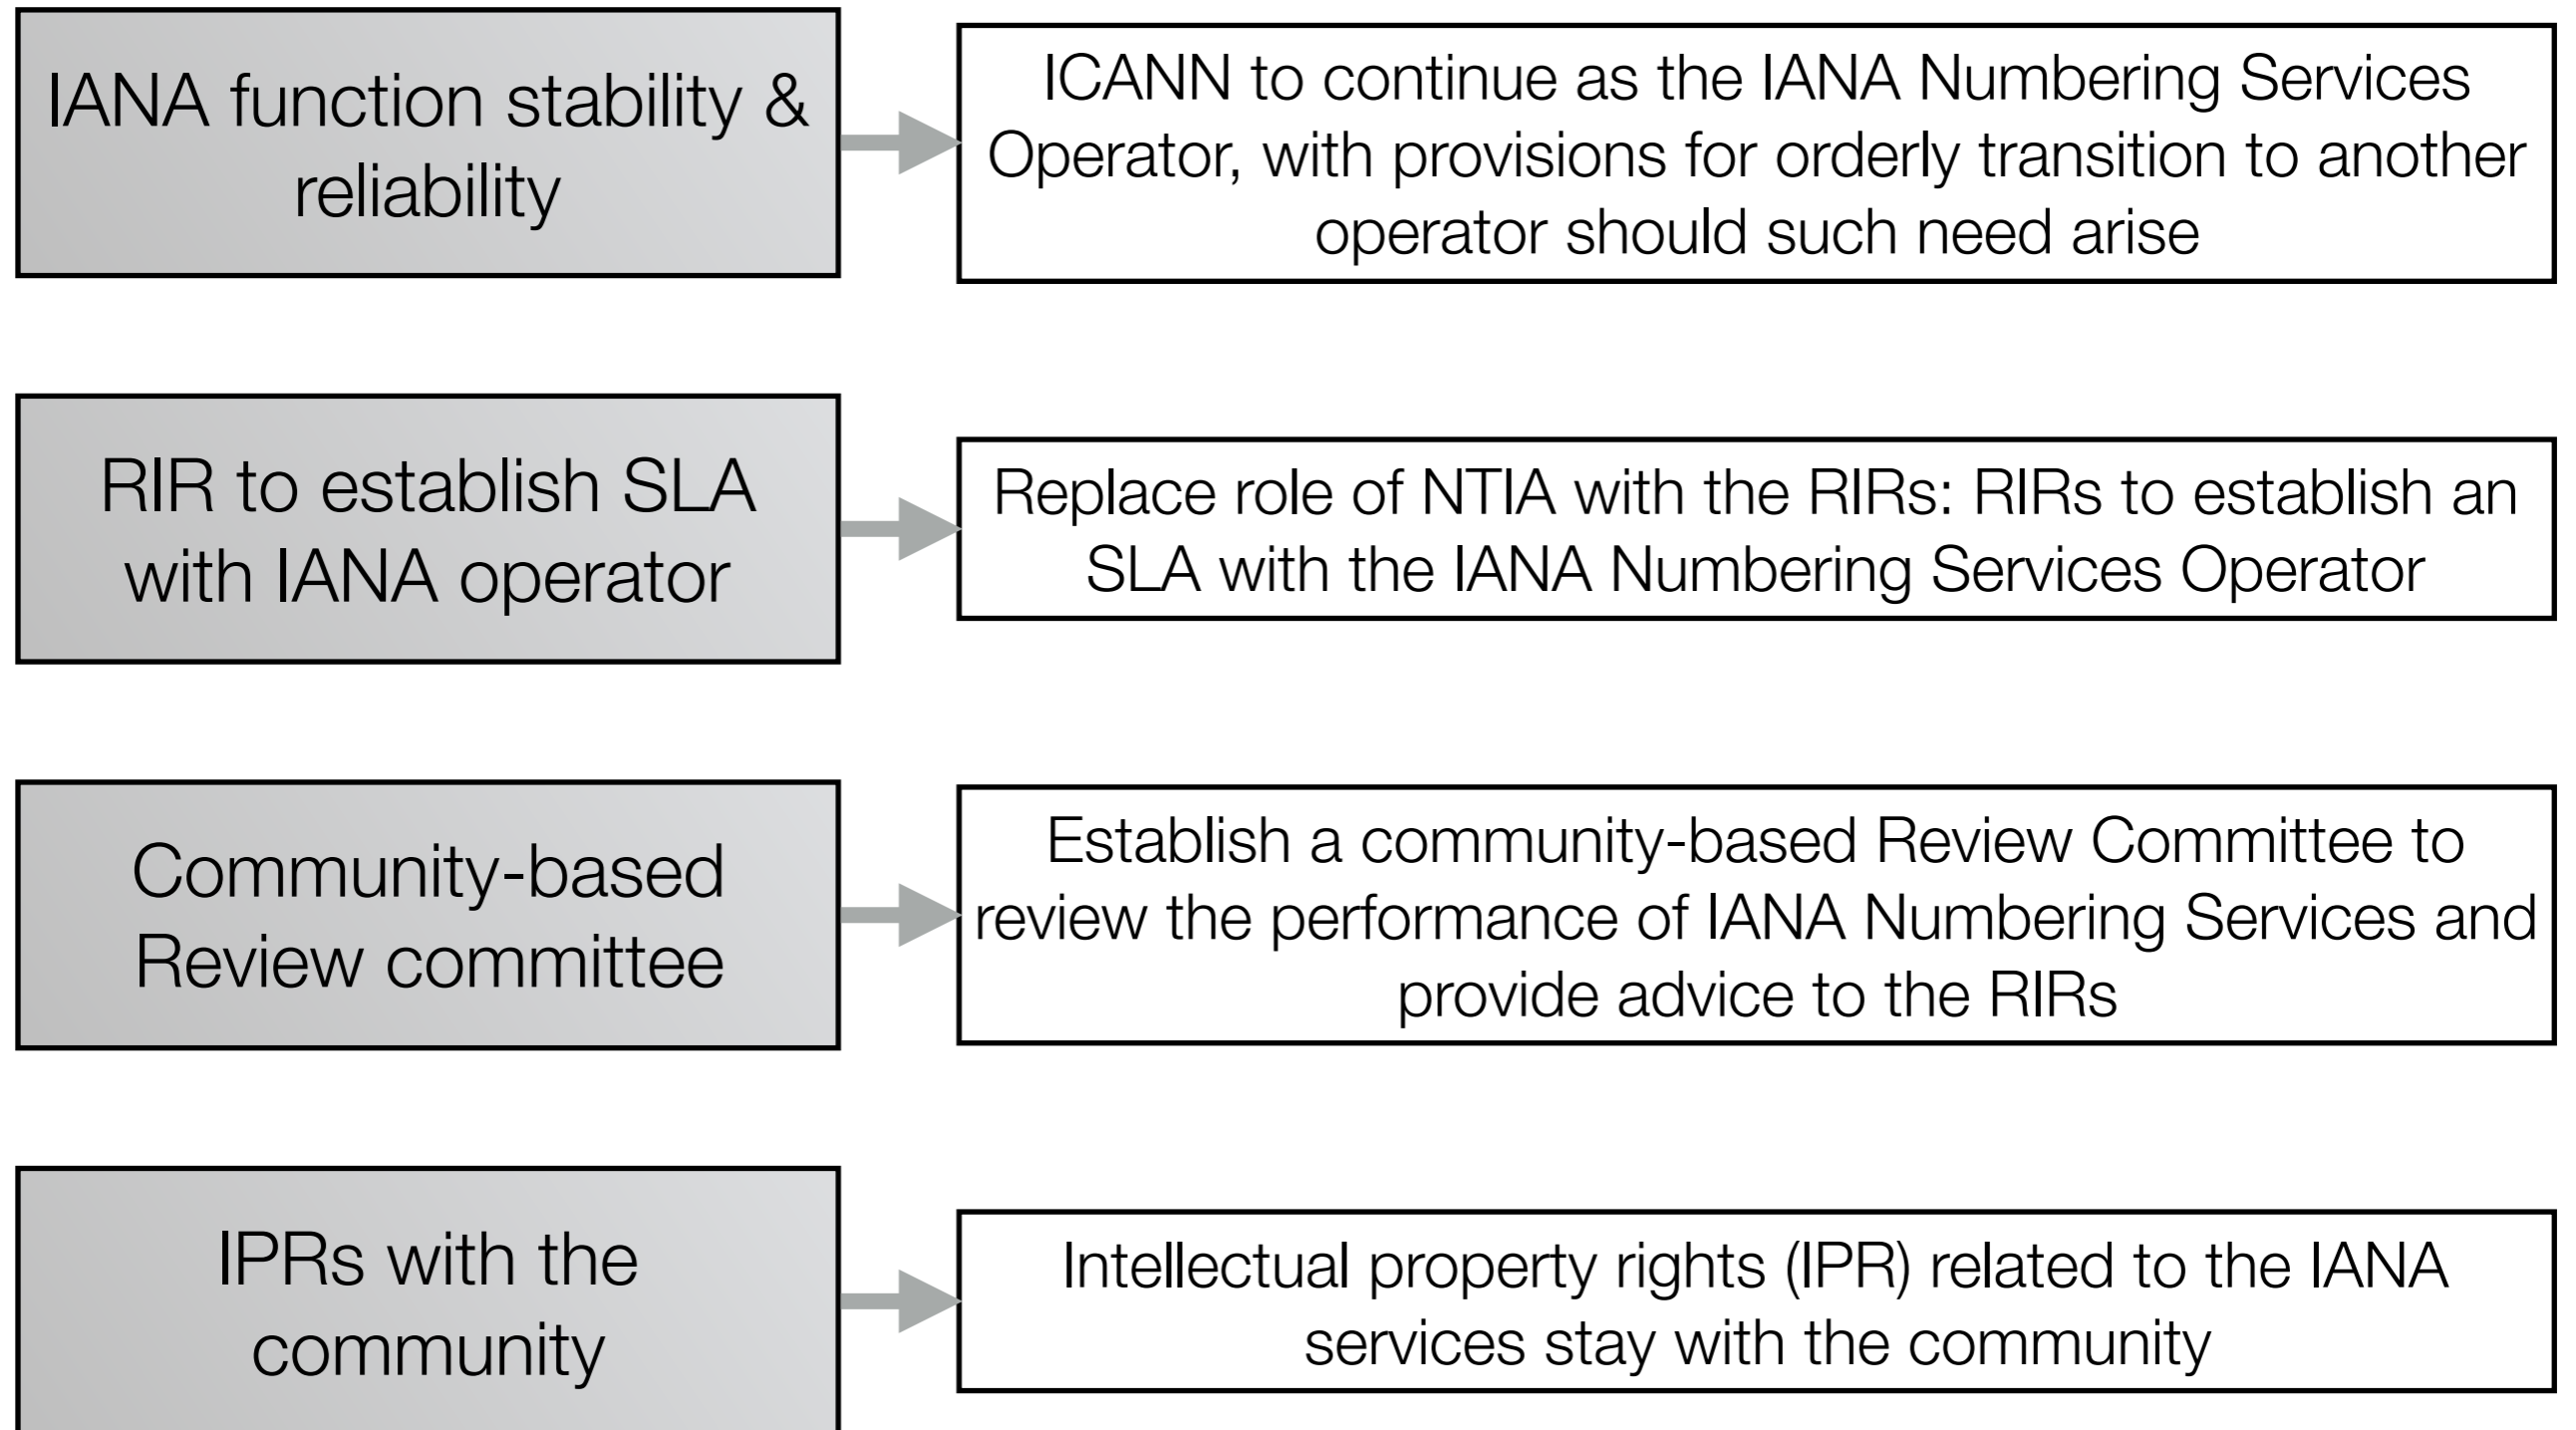

**continuity &  
security**

**openness,  
transparency,  
bottom-up**

**Policy  
development  
remains in RIR  
community**

**performance  
& audit  
requirements**

# Components of the Proposal

# Components of the Proposal

IANA function stability & reliability

RIR to establish SLA with IANA operator

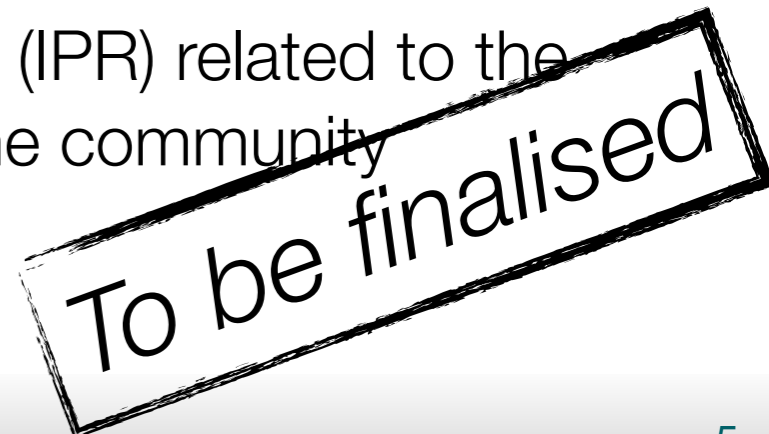

Community-based Review committee

IPRs with the community

- Termination clause: Either party can terminate agreement
- SLA development to take place in public

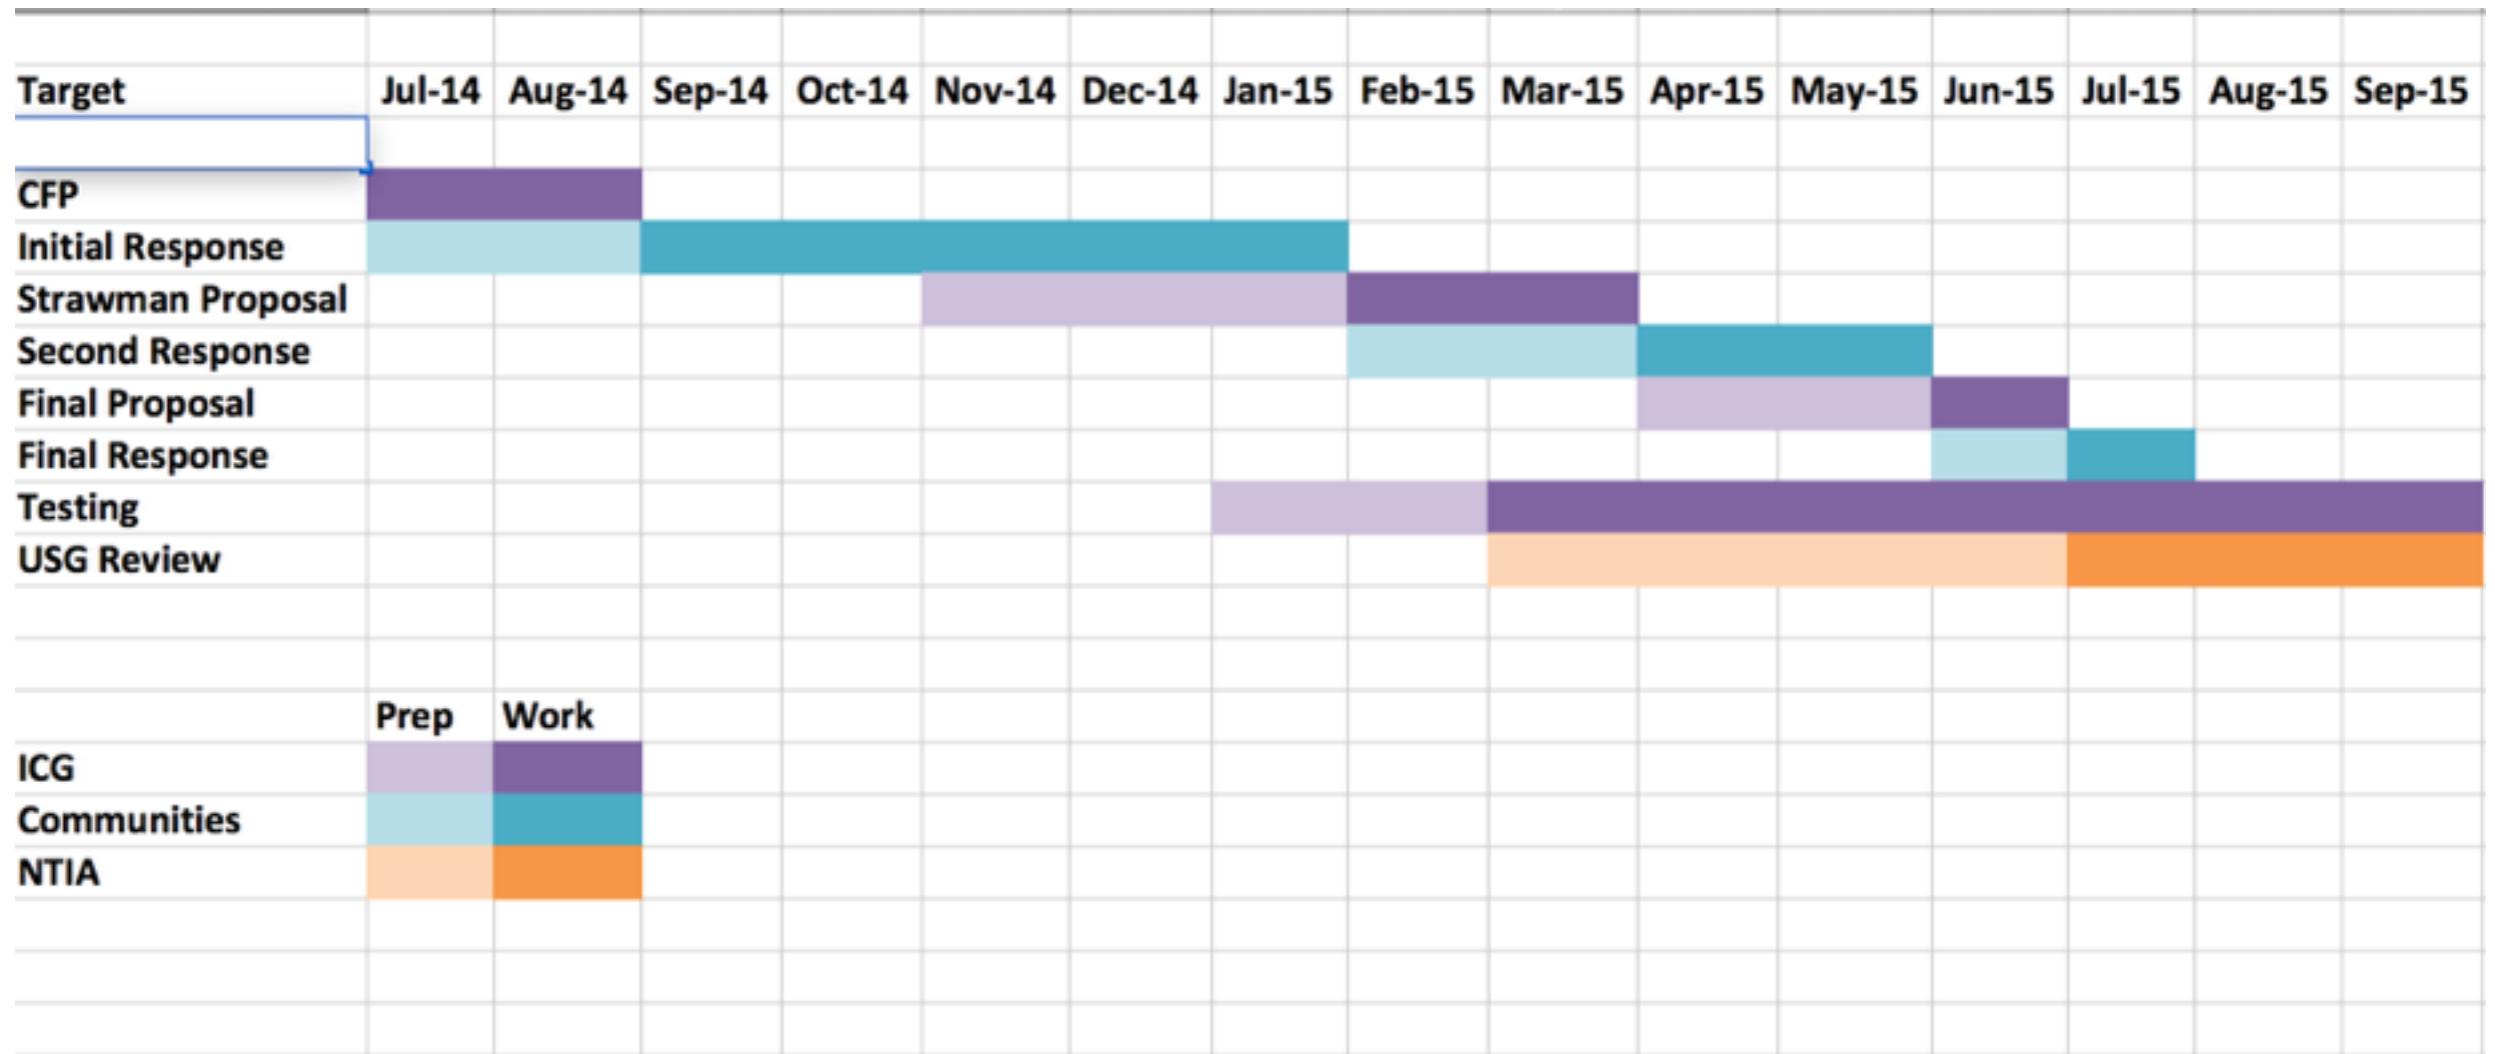

- Intellectual property rights (IPR) related to the IANA services stay with the community

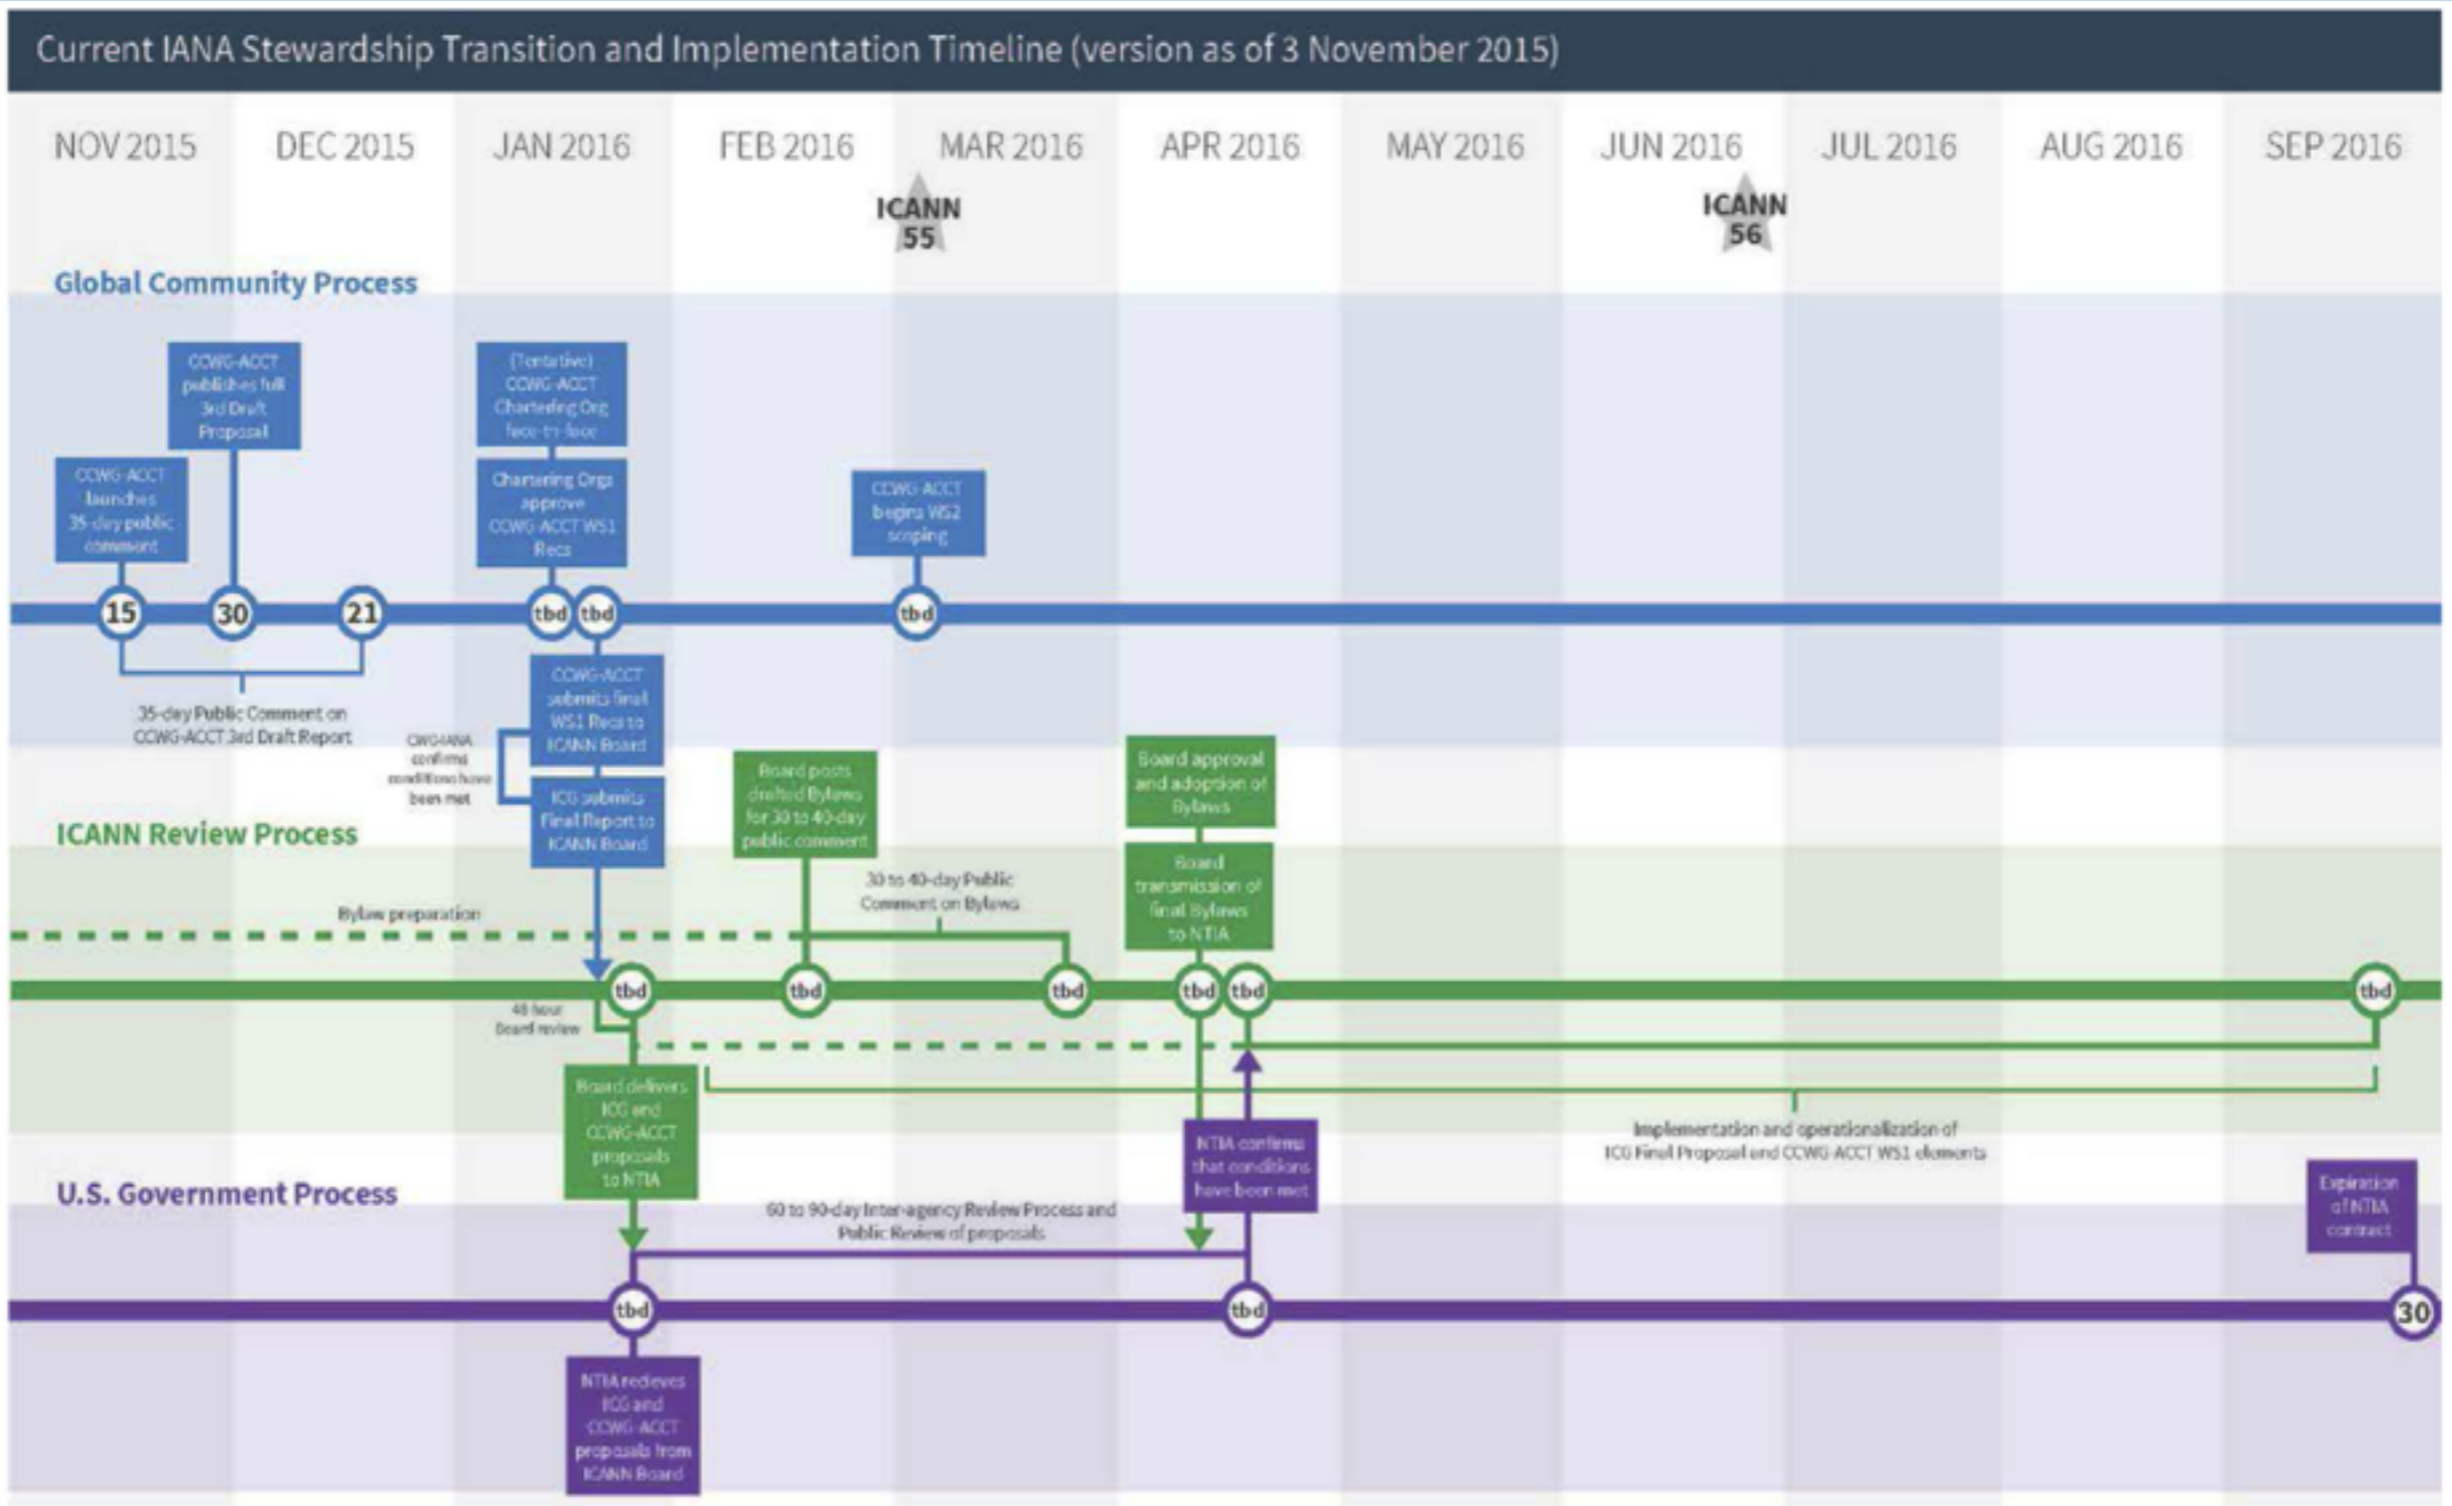

Ok, but we were done  
back in January right?

# Timeline - original

# Timeline

# CRISP team priorities

---

- Committed to the success of this transition
- Transparency throughout the discussion process
- Respect for principles agreed to in the CRISP proposal

# CRISP work post submission

---

- Present, communicate and “champion” proposal
- Ensure proposal integrity
  - Many moving parts in this process
  - IPR, Termination clause, SLA, Review committee
  - Review of and feedback on other community proposal drafts
- Actively participate in overall IANA stewardship transition process
  - Representing the Numbers proposal
  - Coordination with other communities
  - Ensuring we meet transition timelines

Where are we now?  
+ Next steps

# Where are we now?

---

All three communities finished their proposals

- The ICG has completed its combined proposal
  - waiting for CCWG-Accountability
- CCWG-Accountability target date end January
  - ***Very challenging timeline***
  - Includes approvals of all SO/ACs
- Complete proposal submission to NTIA end January
- CCWG-Accountability submission to NTIA end January

# Next steps - finalisation

---

## Intellectual Property Rights

- We want framework finalised before submission to the NTIA
  - IANAPLAN has produced a high level description
  - CRISP has published its minimum requirements
  - ***It's time to finalise this across all three communities!***

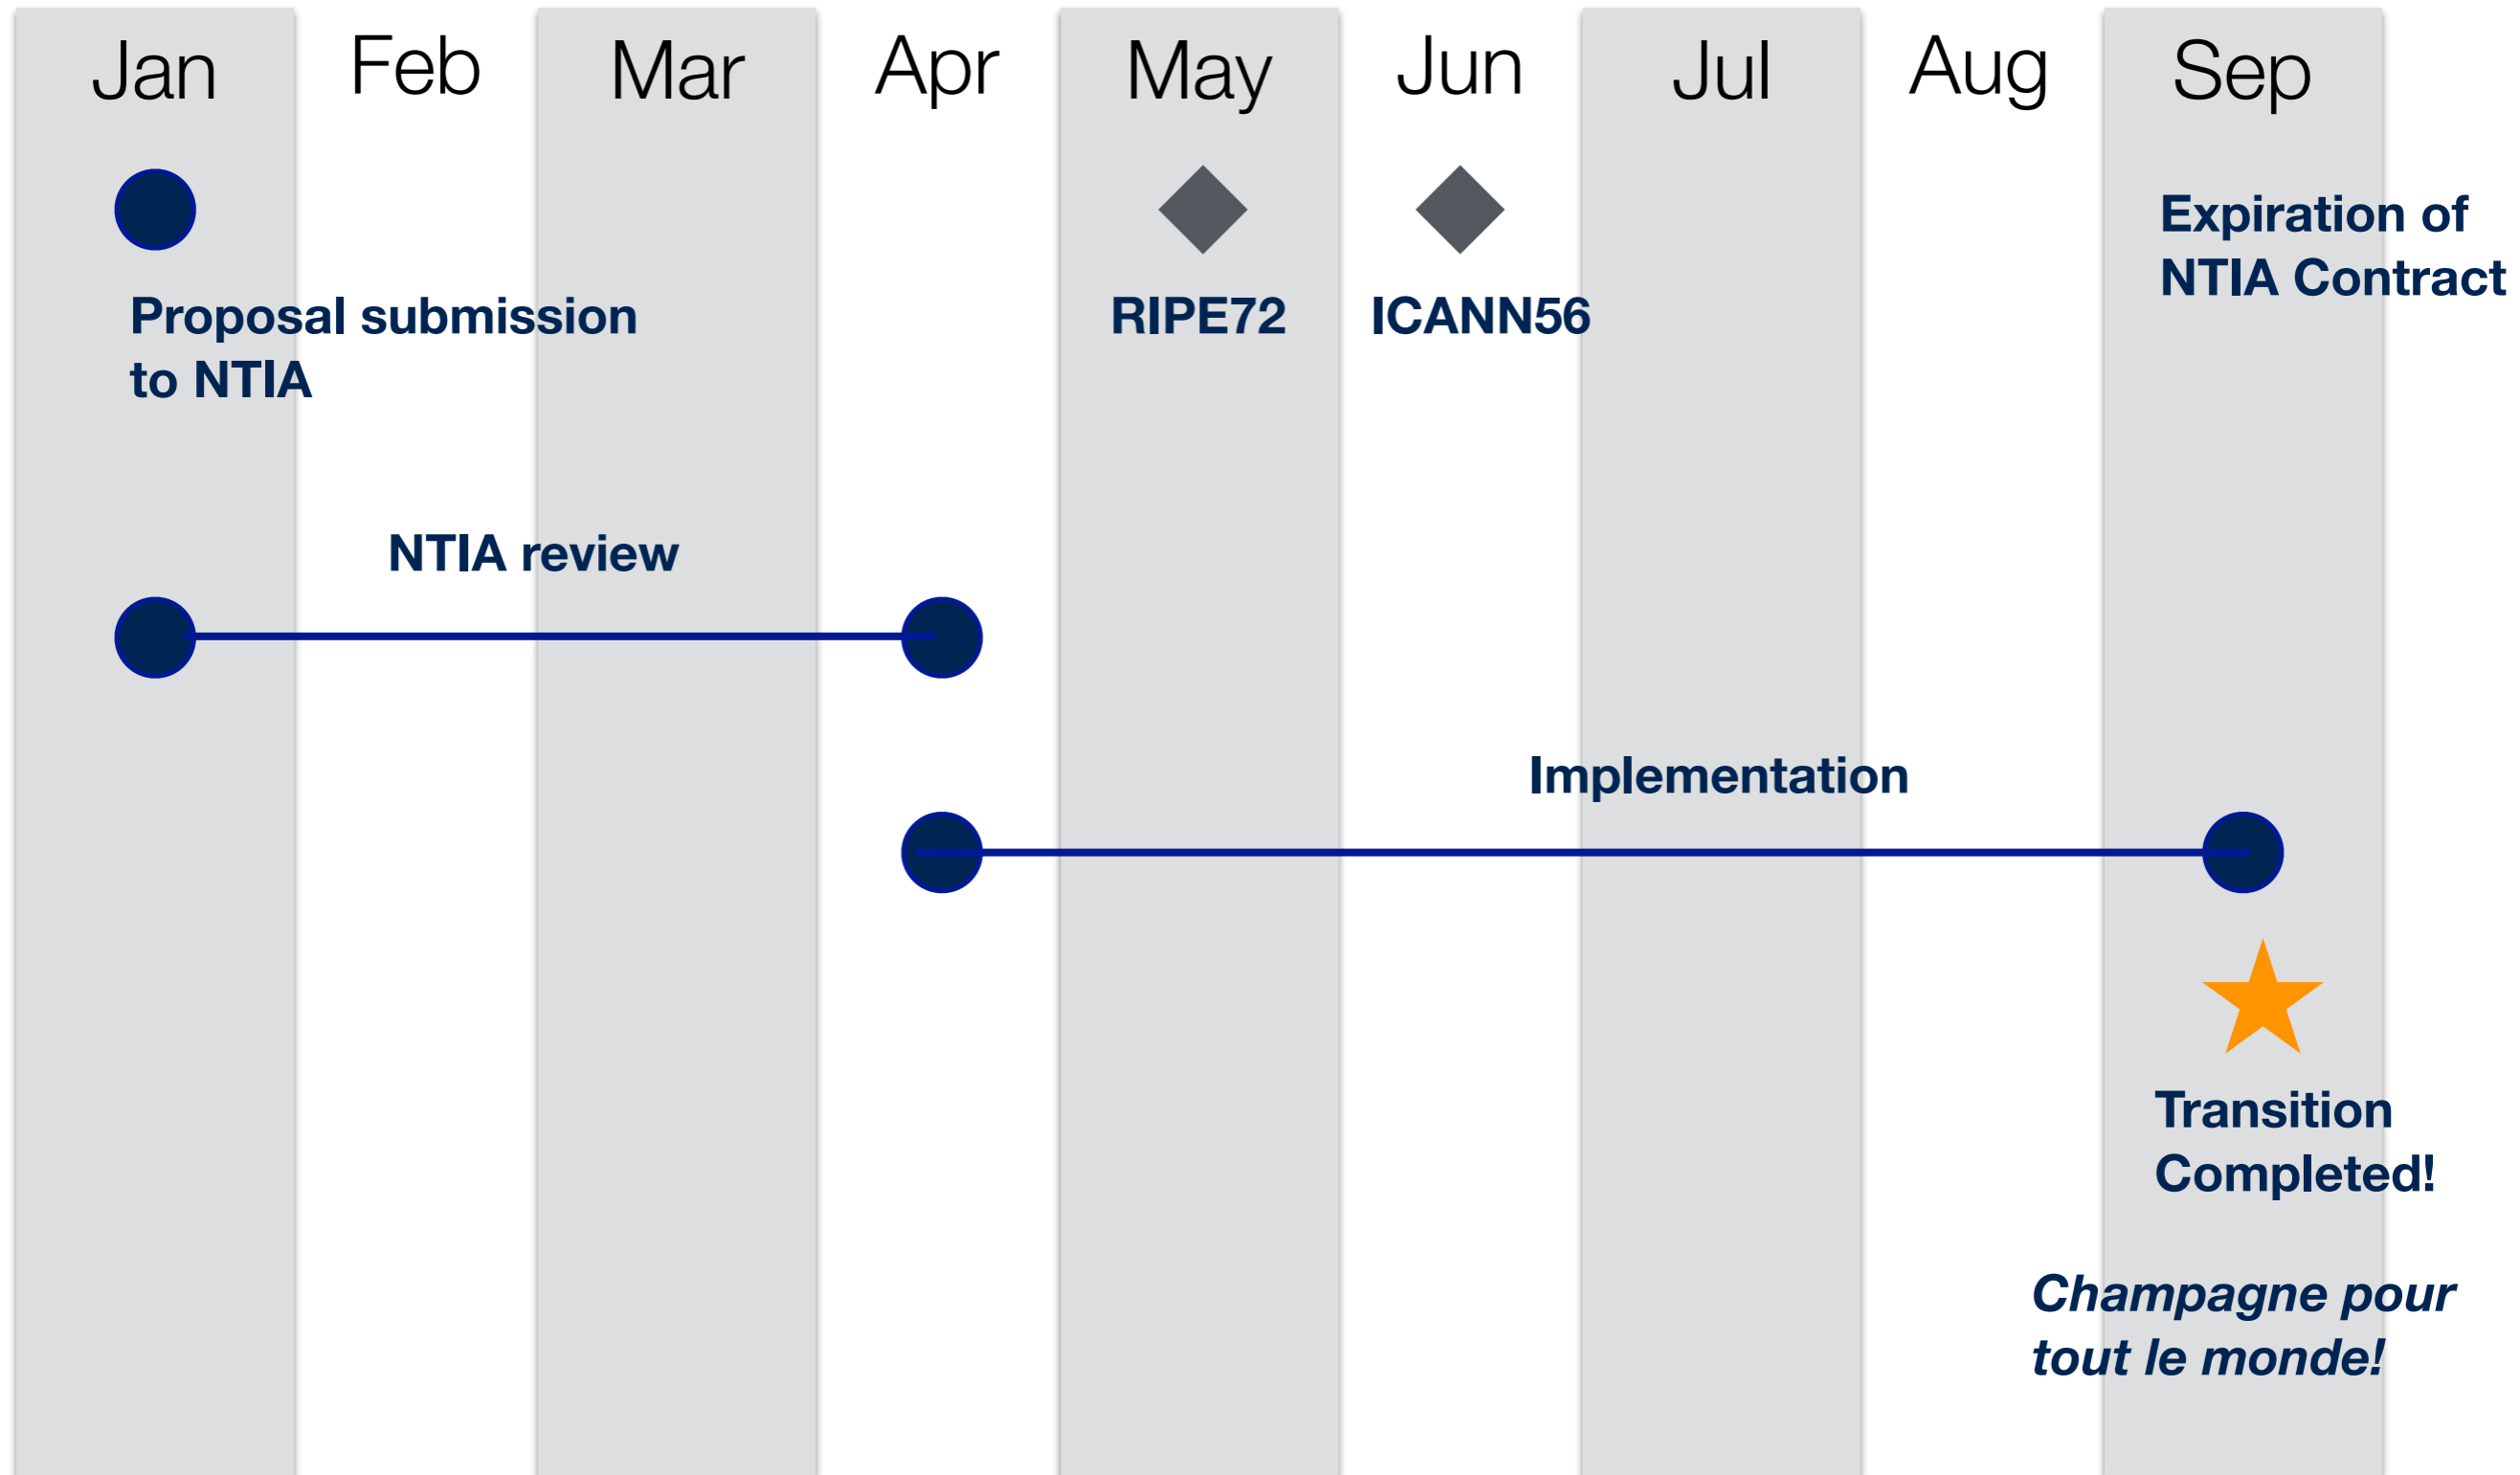

# Next steps - implementation

---

Implementation! (Yay - can we go home now?)

- Tentative talks with other parties
  - Operational communities
  - RIRs
  - ICANN (etc.)
- Different parties have different roles
  - RIRs to implement
  - CRISP team to ensure proposal is respected
    - More of an “auditor role”
