

# Moar hackathons!!1!

[raci@ripe.net](mailto:raci@ripe.net)

# Two RIPE Atlas hackathons in 2015

# 2016: two more RIPE Atlas hackathons planned

- Please invite us! ([atlas@ripe.net](mailto:atlas@ripe.net))
- We need: location, multi-disciplinary participants, funding to cover some expenses for participants
- We offer: organizing logistics & registration, announcements, “domain experts”, RIPE Atlas / RIPEstat developers, open data, good APIs & existing code on GitHub, RIPE Labs as publishing platform, T-shirts :)

# Reasons to host a hackathon

- Learning-by-doing: hands-on & having fun together with hard work
- Creating ties between students, operators, programmers, designers, researchers, locals...
- Giving back to the community: code, presentations, ideas, crazy photos ;-)

# Next hackathons

- Live BGP measurements & monitoring
  - 6-7 February 2016
  - by CAIDA, RIPE NCC, et.al.
  - <https://github.com/CAIDA/bgp-hackathon/wiki>
- Maybe: 17 July 2016, IETF Hackathon, Berlin
- <https://wiki.hackerspaces.org/>
