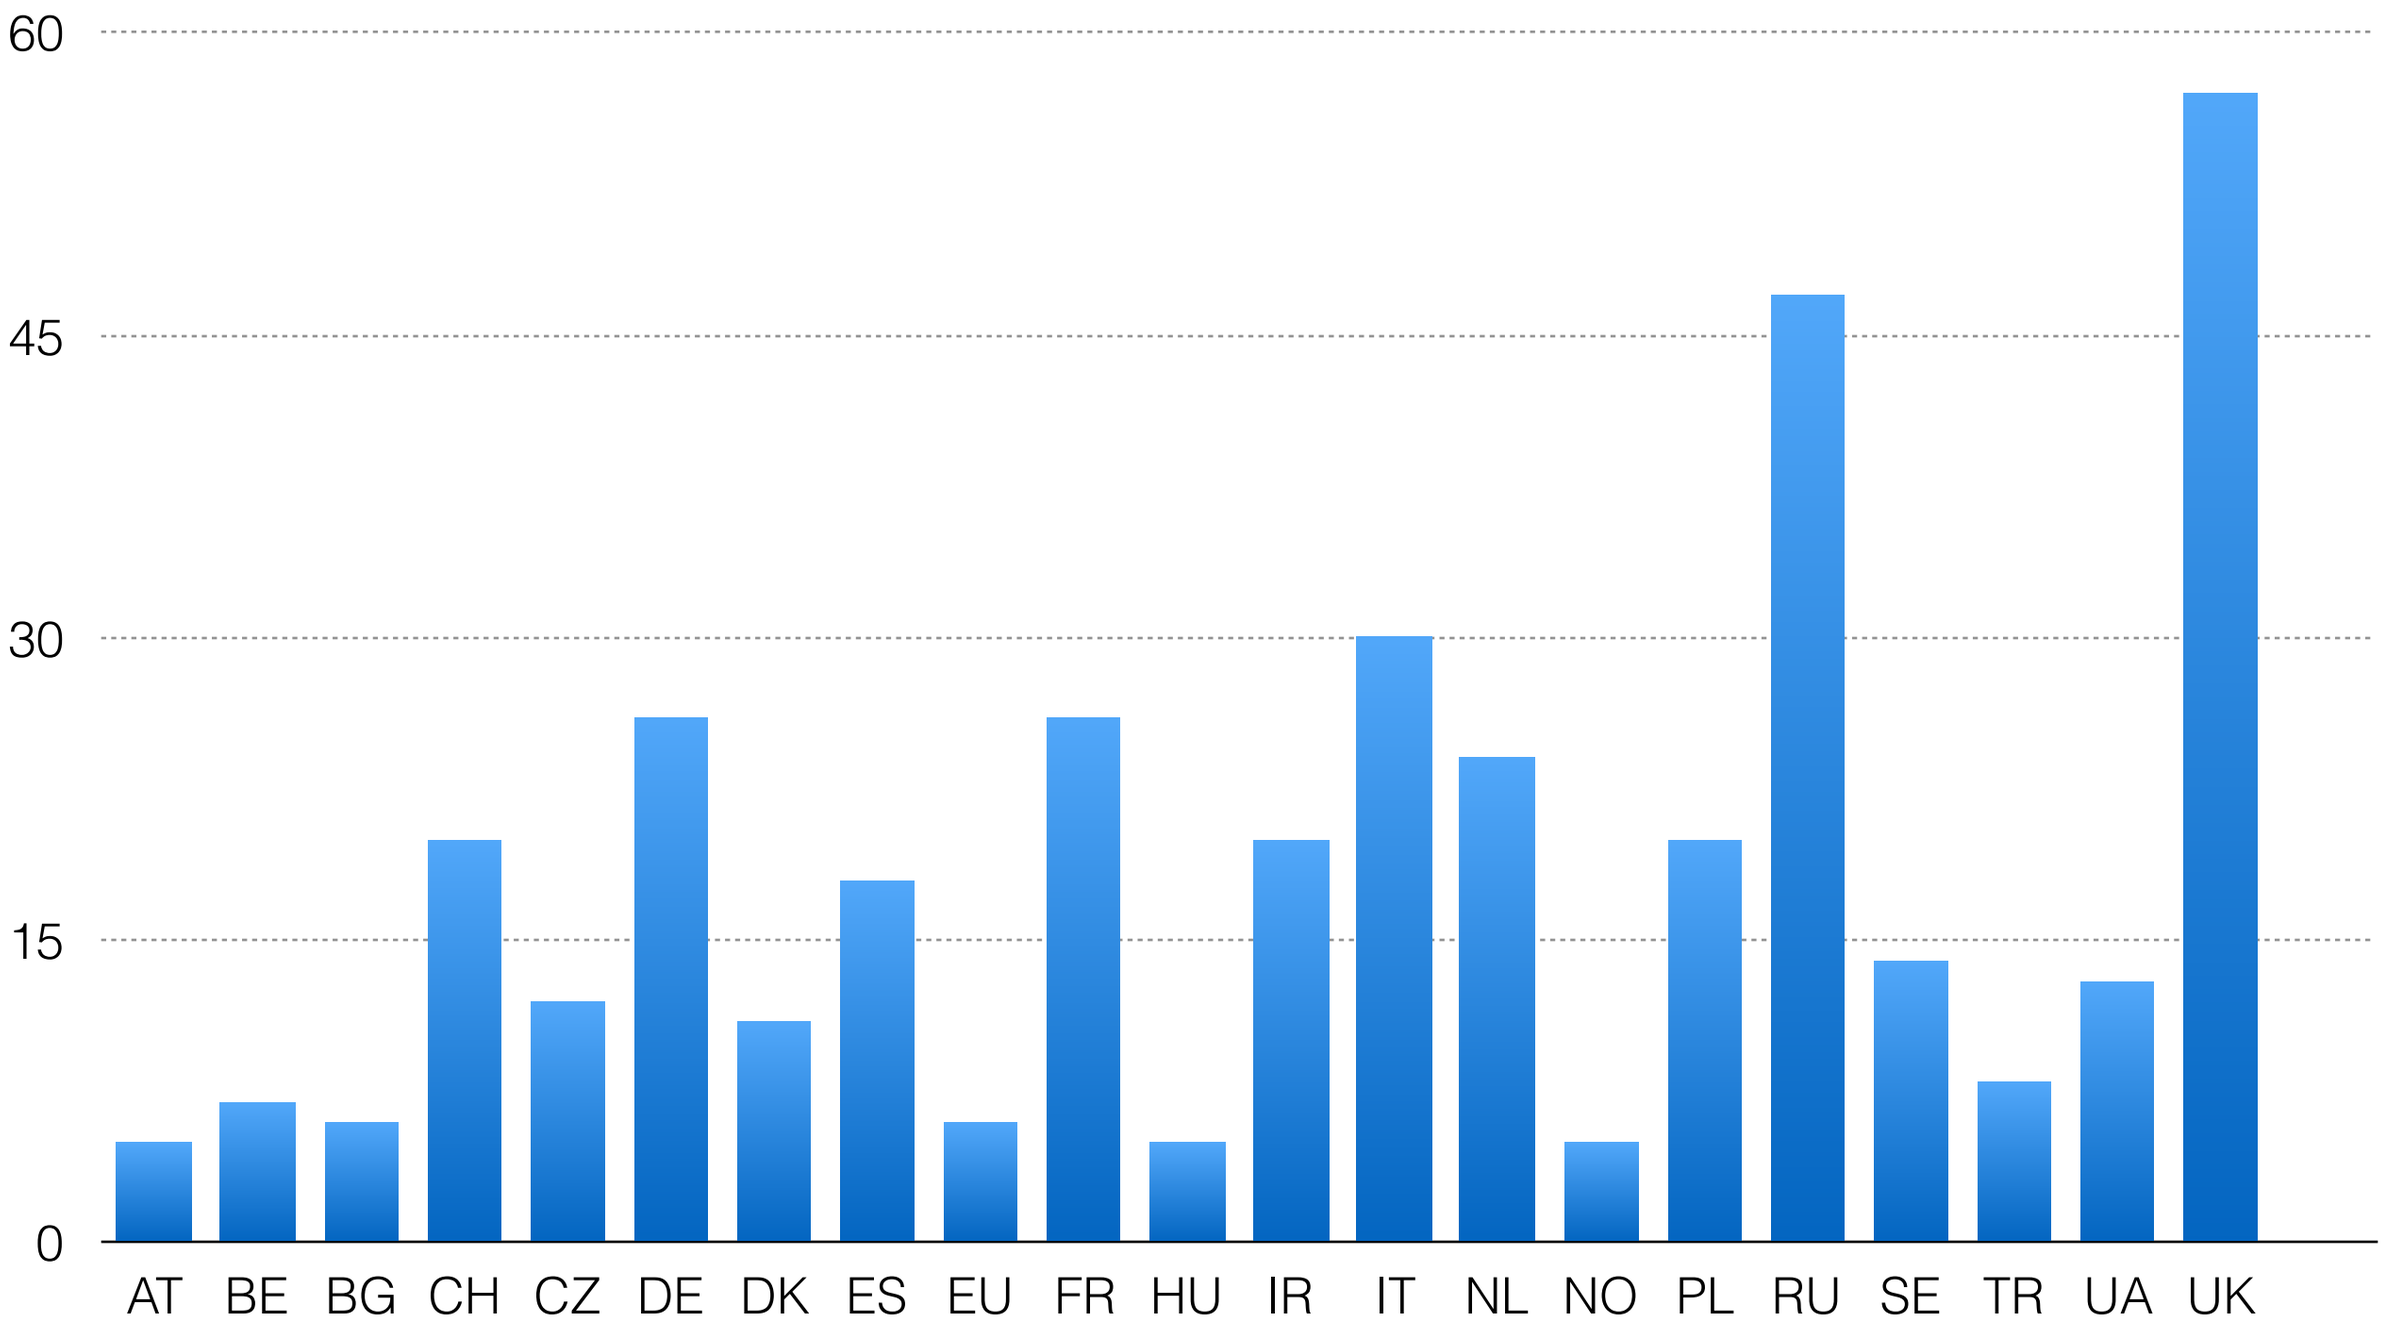
Lost Stars - Update

Nathalie Künneke-Trenaman| 19 November 2015 | RIPE71

RIPE70

- Our R&D department found out 462 LIRs stopped announcing IPv6
- We asked the community for support to contact them

Where are these LIRs?

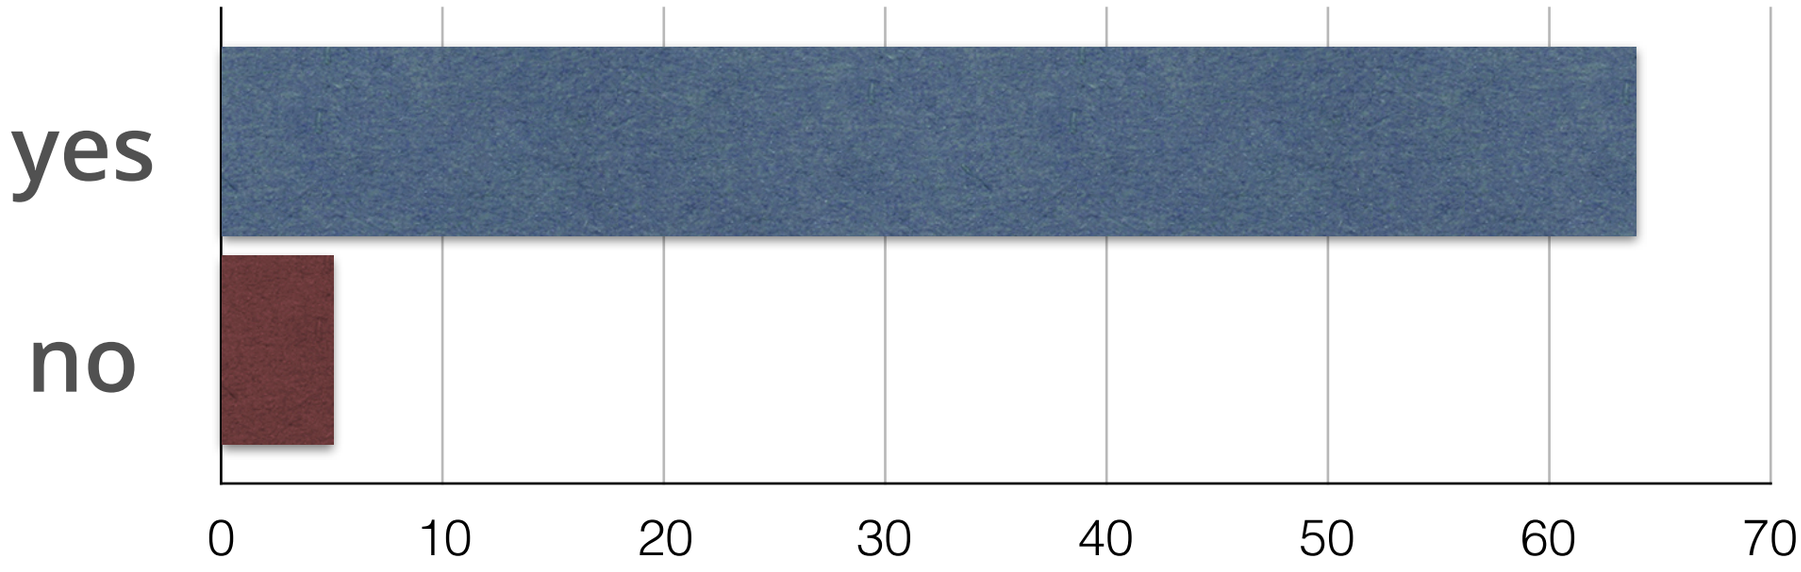


Reaching out

- On the 24th of September we sent an e-mail to contact these LIRs
- We asked them to fill in a survey or have a phone call
- **Within 2 weeks we received 69 survey responses**
  - And a lot of e-mails

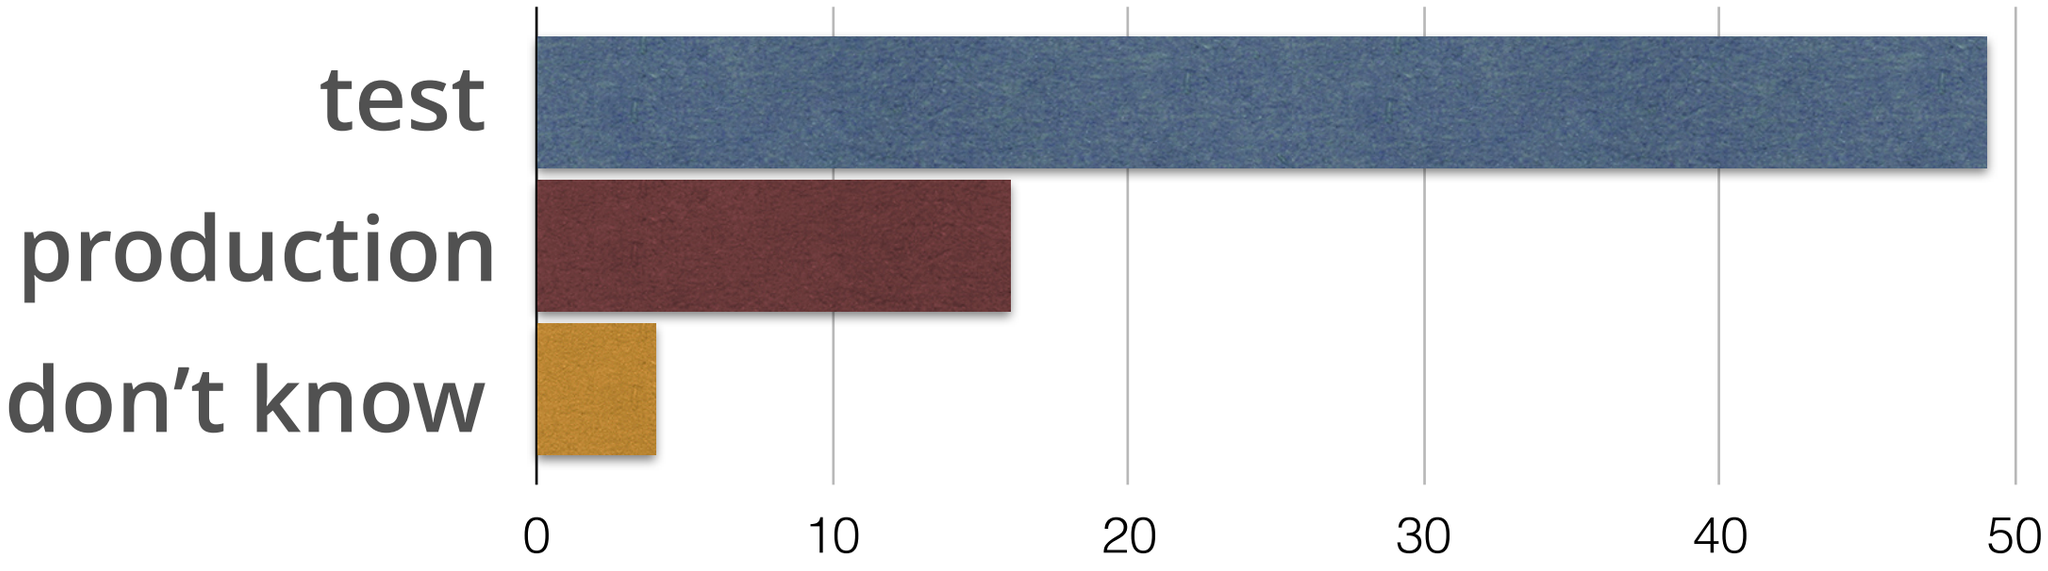
Awareness

- Are you aware you previously announced your IPv6 allocation to the global routing table?



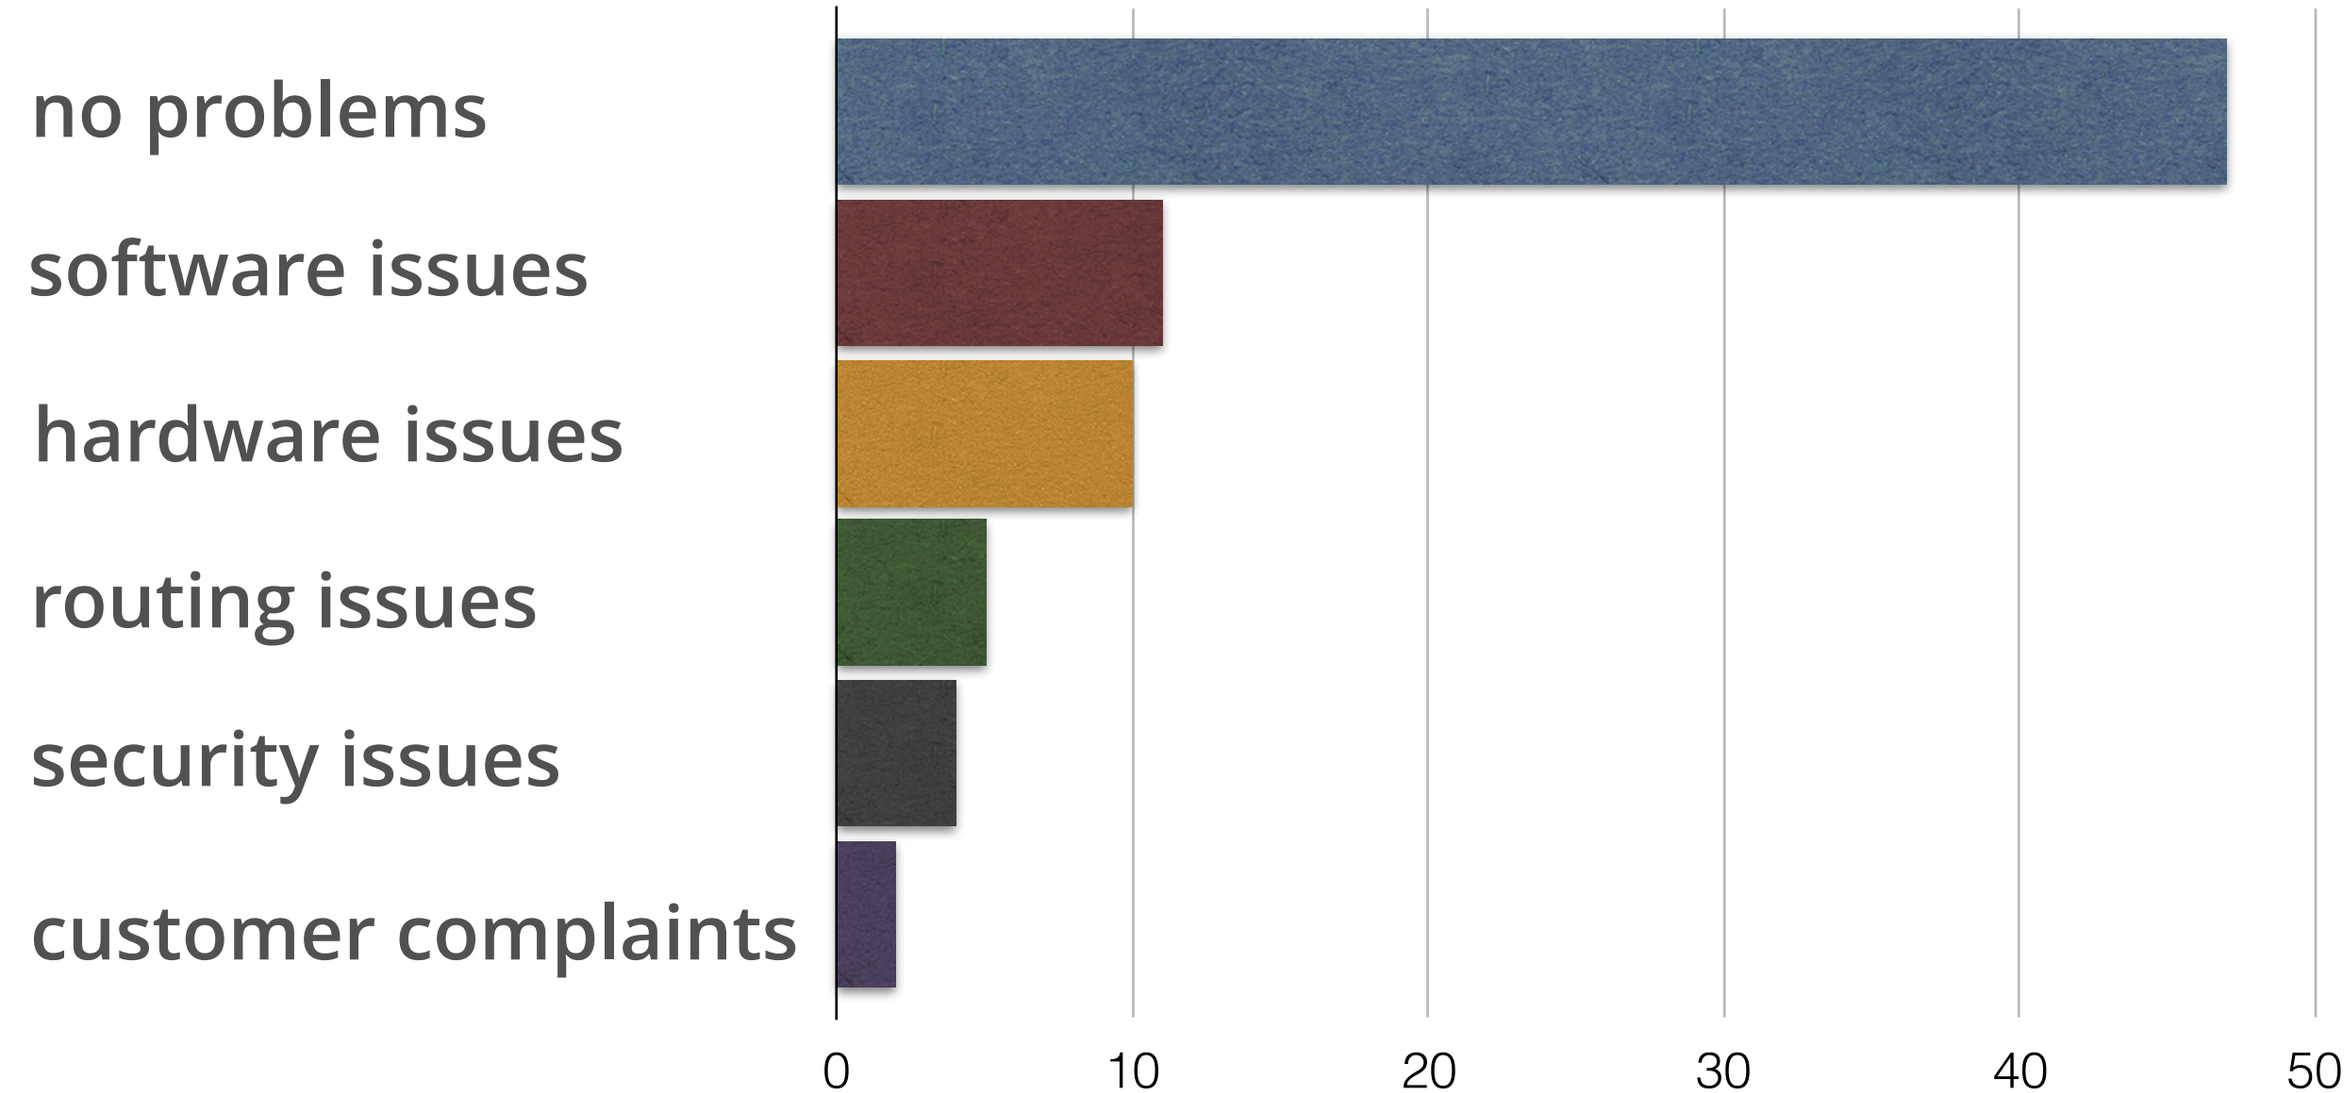
Purpose

- What was the purpose of the announcement?



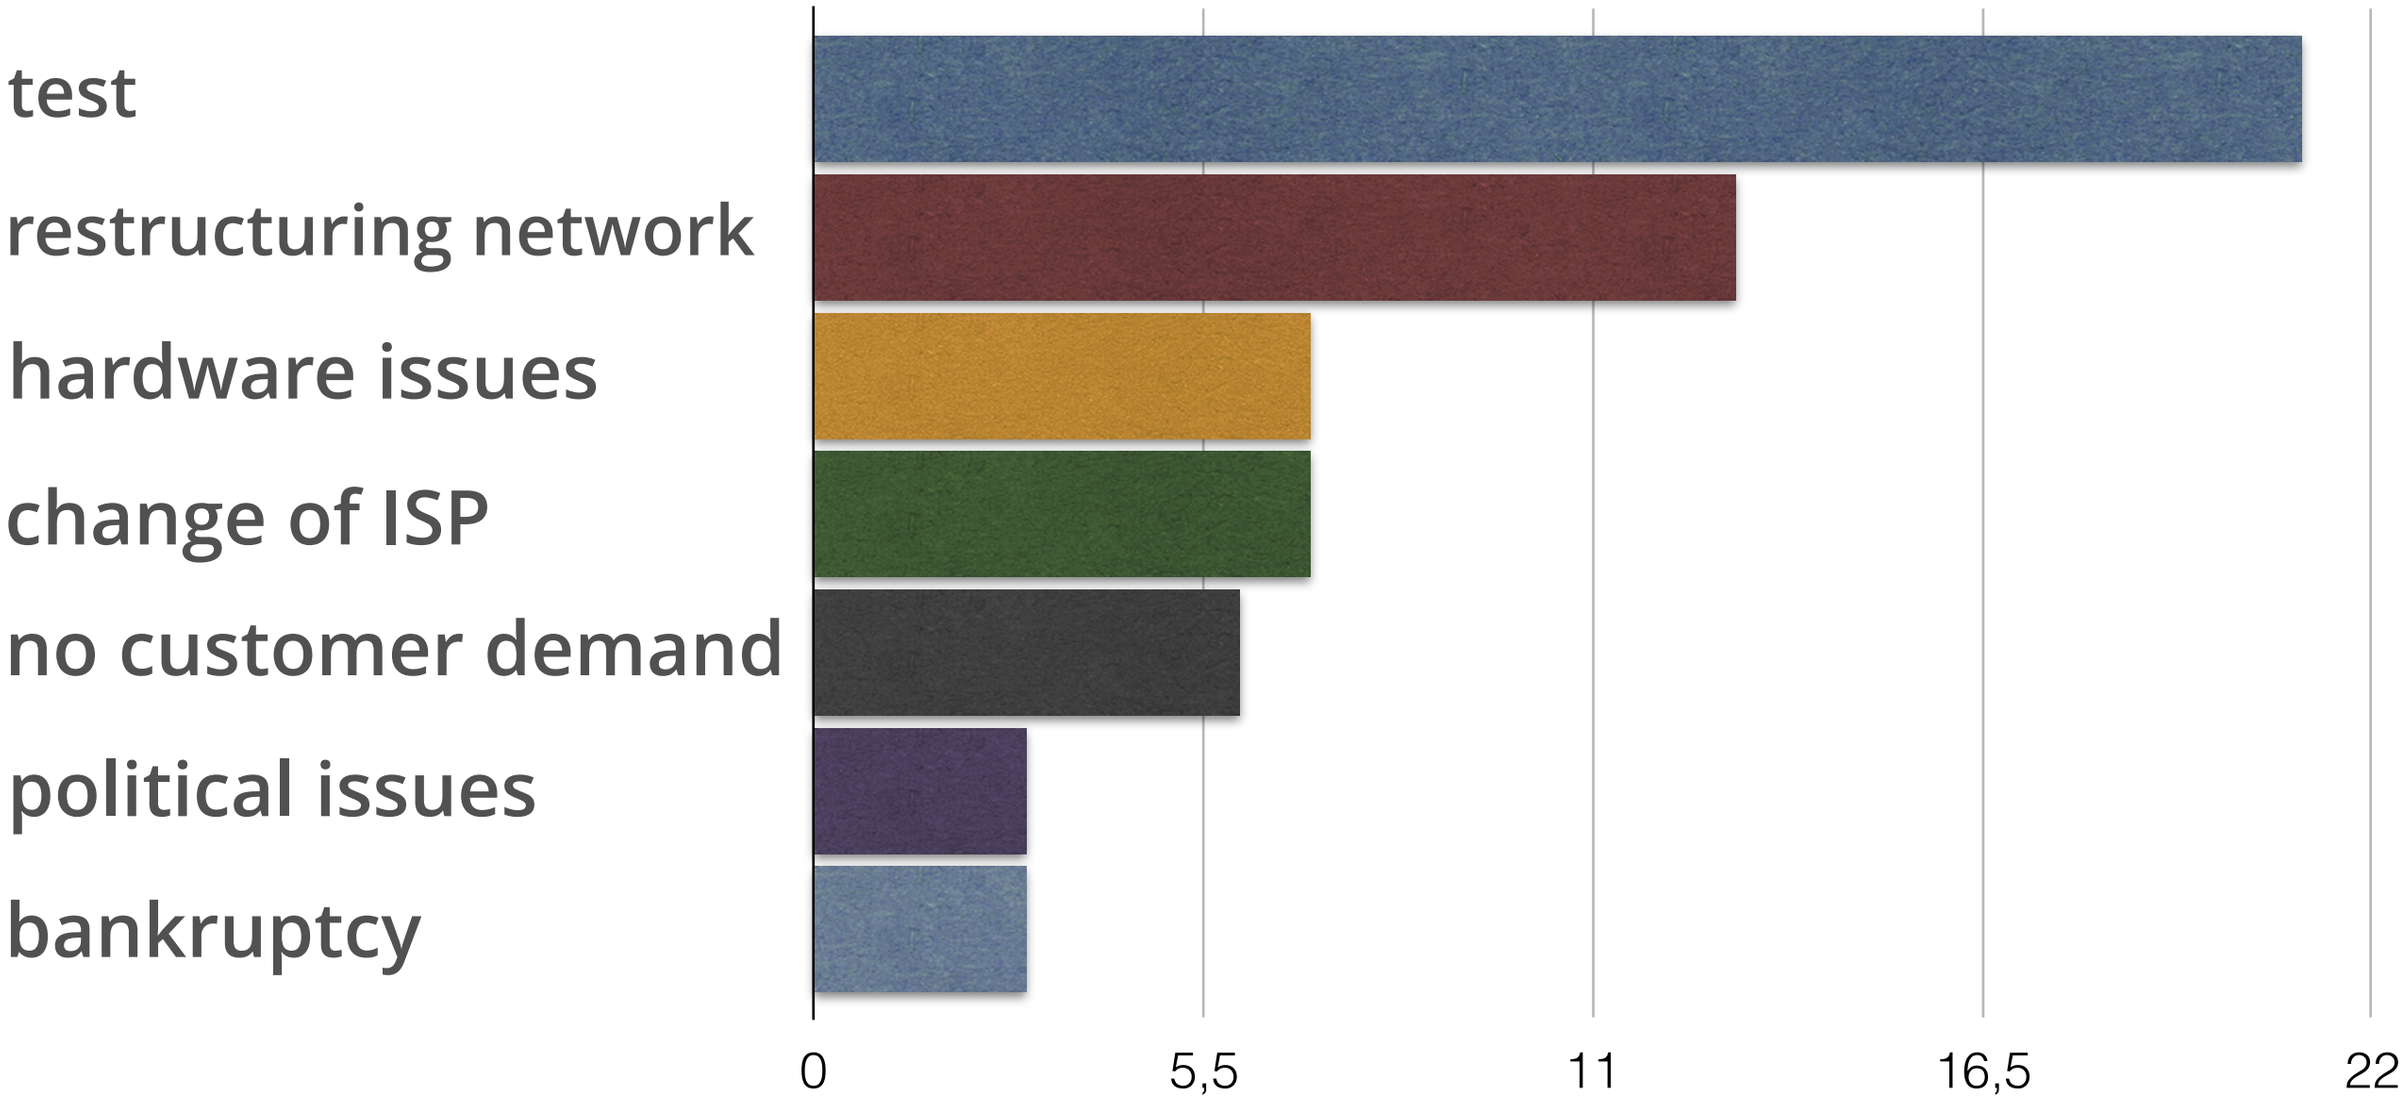
Experiences

- What were your experiences during the announcement?



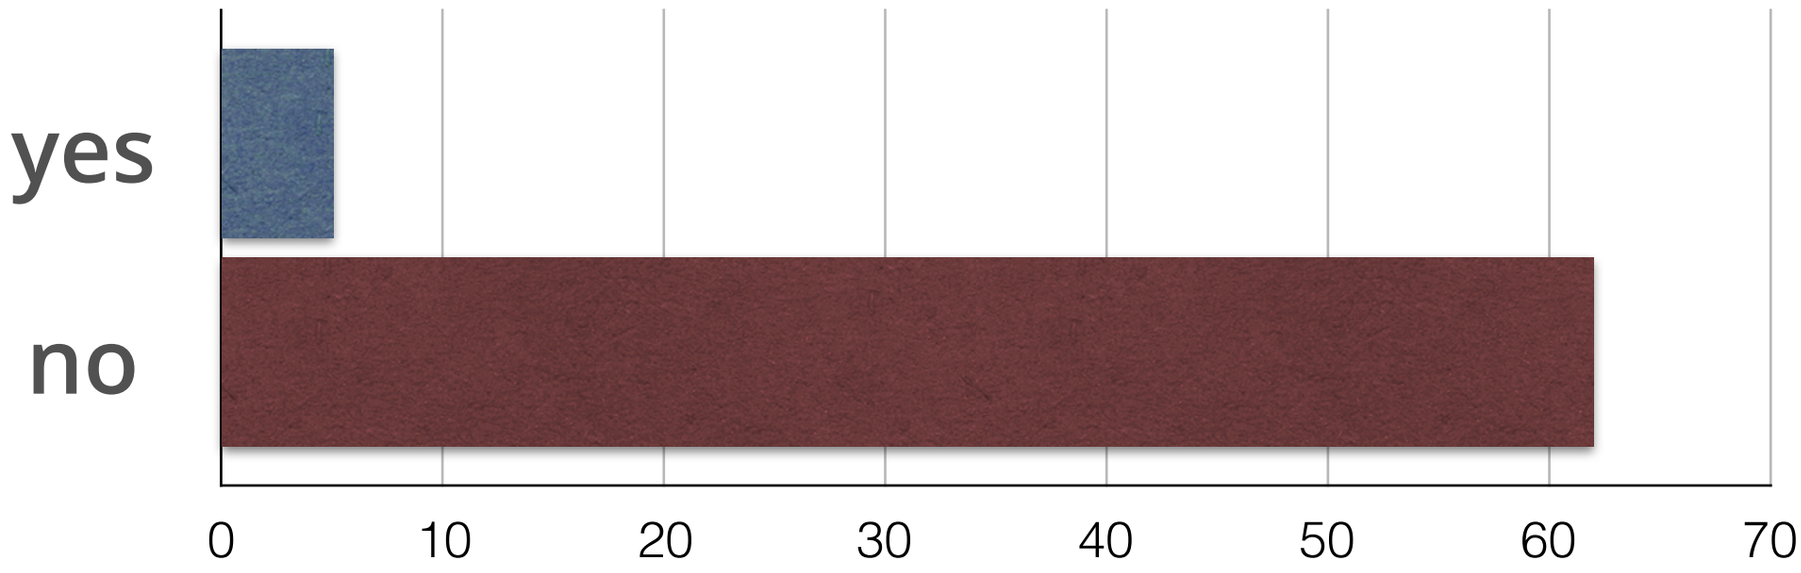
Why?

- Why did you disable your IPv6 announcement?



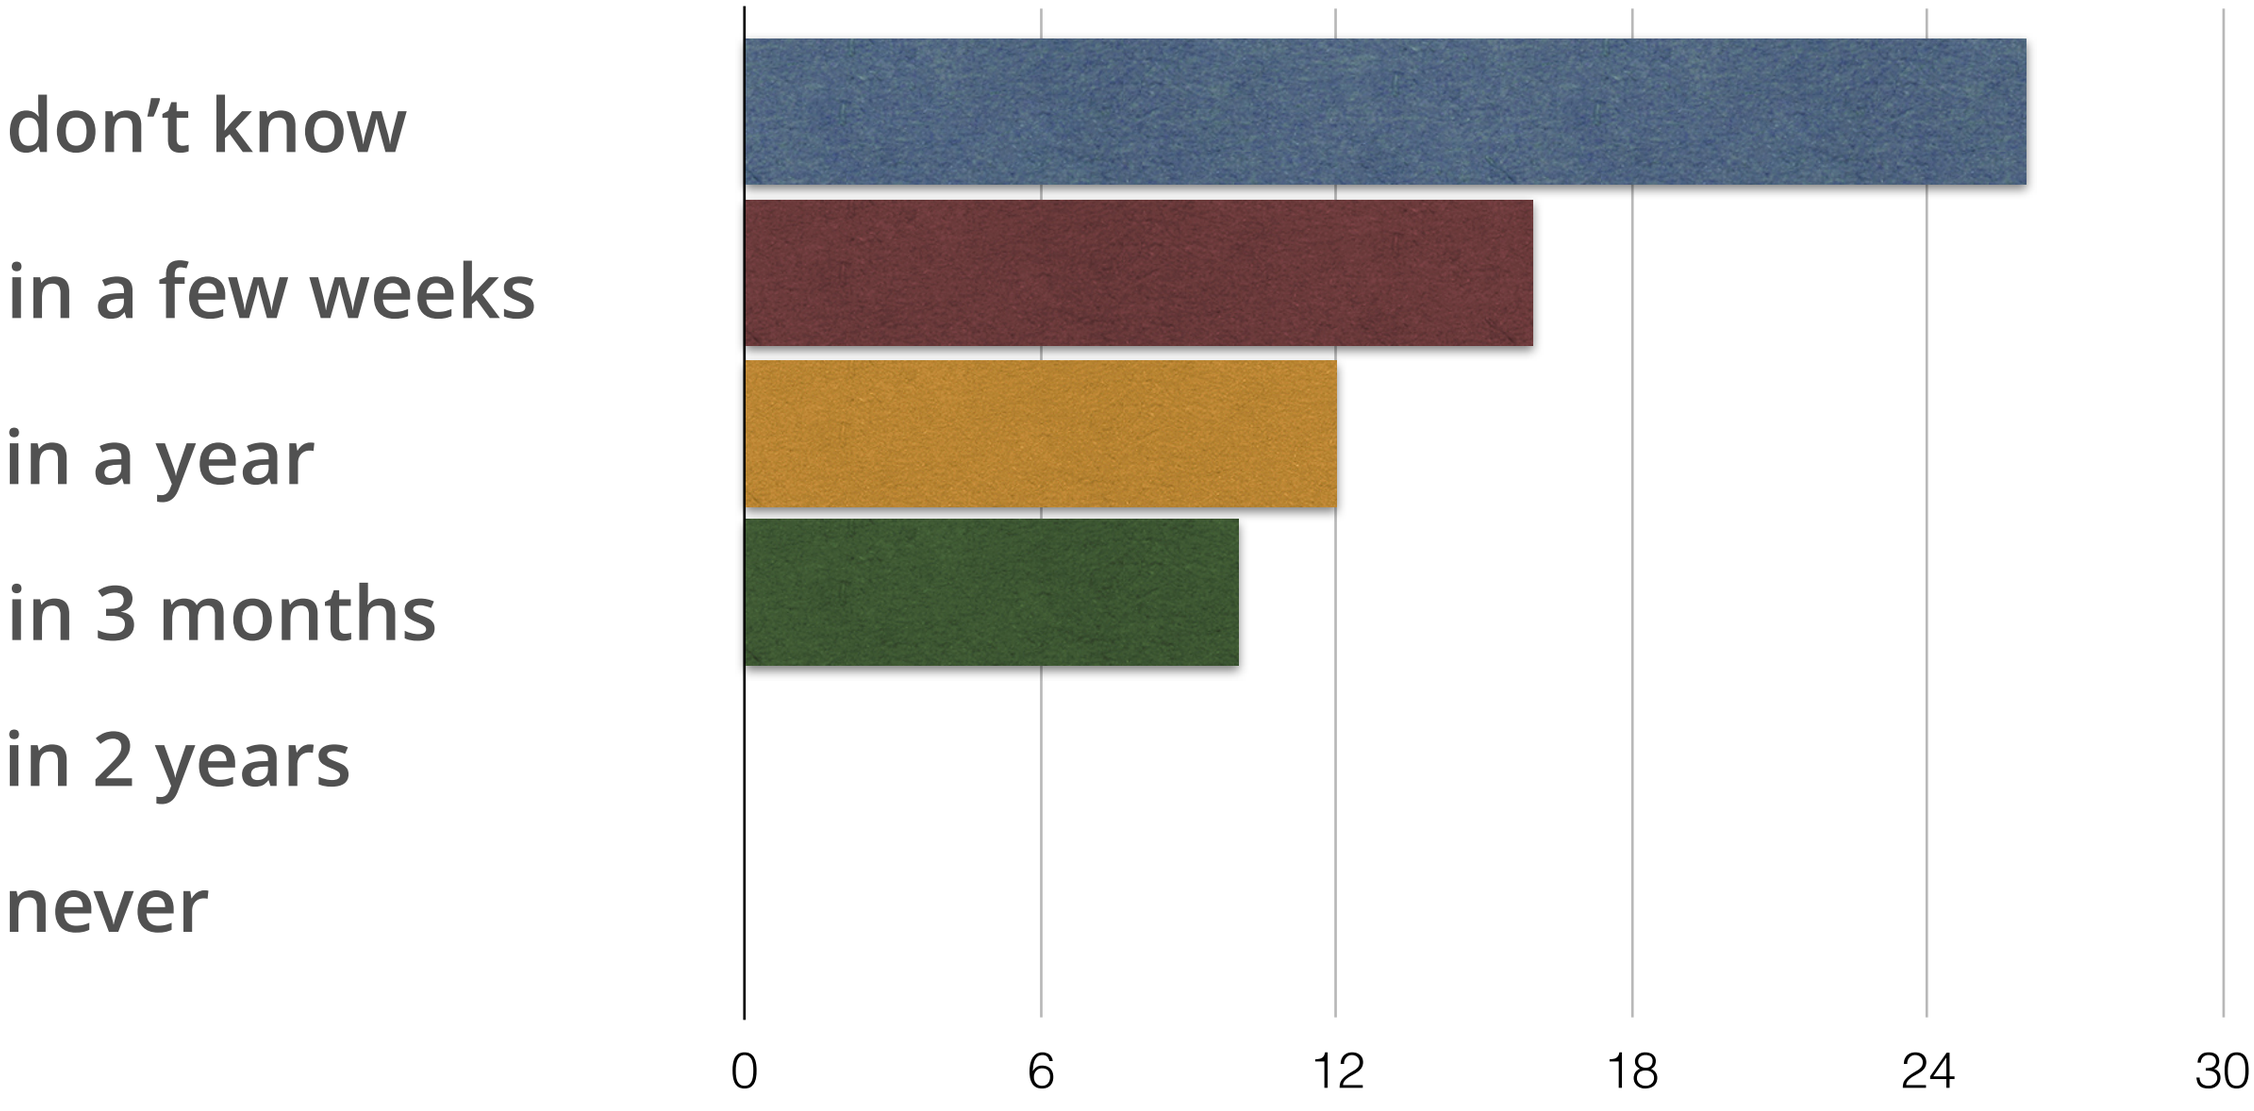
IPv4?

- Did you also stop your IPv4 announcements?



When?

- When will you announce your IPv6 prefix again?



Can RIPE NCC help you?

- Provide more training
- Tips for addressing plans
- Pointers for best practices
- Discuss IPv6 with governments
- We'll get back to that ;)

IPv6 RIPEness

Update about the 5th star
