
So, You've Decided To Peer...

Make Peering Safer!

Matthew Walster
Network Engineer

fastly[®]

What information exists today?

- EBGP Configuration BCOP v0.1
 - Ugly, long, mediawiki, full of technical minutiae
 - Routing Manifesto: MANRS
 - Deeply technical, incredibly verbose
 - IRRToolset
 - Trial by fire, difficult to use for a novice
-

—

**THESE ARE AIMED AT THE
WRONG AUDIENCE!**

<https://peering.readthedocs.org>

What's the end result?

- Easy, clean examples of what to do
- Available for multiple platforms
- HTML / PDF / ePUB deliverables

THEN MORE NETWORKS WILL FILTER!

More information

- All data should be well cited and tested
 - Further references to (e.g.) MANRS to learn more
 - Written in RST, compiled with sphinx at RTD
 - Submit a pull request with your changes!
-
